specifications for the purchase, delivery, and installation of a **new steamer** and conveyor and the scope of work for the installation, testing, and training. “

- b. We're not gas techs unfortunately and we want make sure the SOW is just the conveyor.
3. Does the unit need NSF testing done? – **County will look into.**
 - a. All components are stainless steel and NSF listed such as the grey tube(the grey/blue means good for food contact where as white/black are used for drain applications) and Interroll bearings as well which we use everyday in our dish room designs.
4. Should we follow the drawing that was provided to us at the site meeting as the unit you need and **not the unit below**? **Please quote based on drawing provided in this addenda, not the drawing below.**

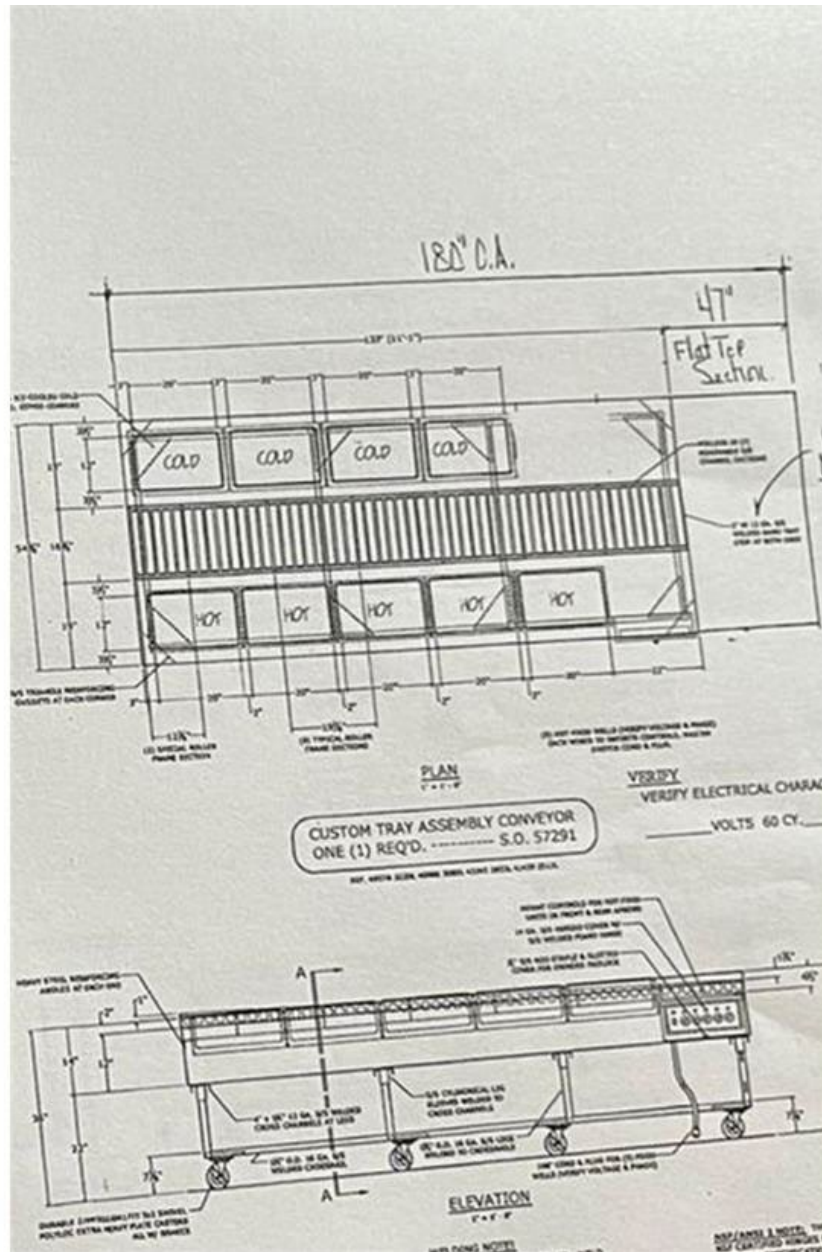

5. In addition to question #4, the length should be followed 180” as per drawing **that is provided on site meeting** ? **Please see attached drawing in this addenda only.**
6. With the drawing below, is the bidder required to install the hot and cold wells? **Please see attached drawing and note below.**
ONE (1) FIVE HOT SLIM LINE TRAY ASSEMBLE CONVEYOR WITH CONTROLS AND ROLLERS
ONE (1) FOUR COLD FOOD SLIM LINE TRAY ASSEMBLE CONVEYOR WITH ROLLER.
7. IF so, is the quantity correct on site visit drawing? **See answer in question 6 and drawing attached in this addenda only.**
